

Bee Wise®

PRODUCT
CATALOGUE

*Perhaps in a time when
days were long and golden
and only the 'little people'
trekked across the arid,
African plains,
perhaps then this little
gift of nature was born.*

*It has been handed
down from generation
to generation until now
when we, in our turn,
offer this treasure
to you.*

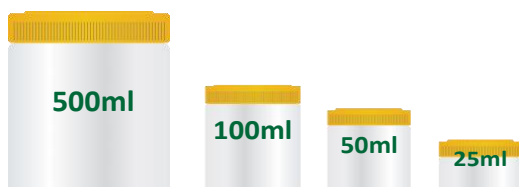

DERMAL BALMS

For the more sensitive skin.

PRINCESS HAIR

LIP BALMS

Blister Blaster Supreme!

Fever blisters or cold sores are painful lesions which usually form on the lips, chin, cheeks, or nostrils. The blisters turn into yellow-crusts and then disappear within a couple of weeks. Unfortunately, people who get cold sores, which are caused by the herpes

simplex virus (usually type 1), generally get outbreaks over and over again and they are highly contagious.

This virus is passed from person to person through saliva (directly, or by drinking from the same glass or cup) or by skin contact. Stress too can lead to an outbreak of fever blisters and cold sores. This includes mental and emotional stress, as well as dental treatment, illness, trauma to the lips or sun exposure.

Ingredients – beeswax, propolis, essential oils, carrier oils and TLC (immeasurable)

AVAILABLE IN 10 ml ROLL ON

PROPERTIES – analgesic, anesthetic antibacterial, anti-fungal, antihistamine, anti-inflammatory, anti-microbial, antioxidant, antiseptic, astringent, fungicidal, germicide and sedative.

INDICATION FOR USE - to aid in the treatment of pernicious fever blisters and cold sores.

CONTRA INDICATIONS - *Keep out of reach of children and animals *DO NOT swallow *DO NOT place within the eye

SHELF LIFE – 12 months

BEE VARIABLES

ALL PRODUCTS

Sensitivity Test:

Rub a 'dab' of the product onto the inner (soft) area of your elbow; watch for swelling and/or reddening of the skin within +/- 30 seconds; be cautious - should a prickly/tingling' feeling occur within +/- 30 seconds follow the instructions below.

Antidote:- wash the affected area immediately with warm, soapy water; towel rough dry.

Mild Ailments & Cosmetic Use:- (1)

*Place a 'dab' of balm on a fingertip

*Slightly soften the balm between the fingertips of both hands

*Apply to the desired area in a circular motion - the wax base in the balm will spread as it warms & lubricates the skin

*Massage the area 'until the shine disappears'. This should take no more than +/- 30 to 40 seconds. (Should it take longer, too much balm is being applied.)

Apply At Least 2 To 3 Times Per Day For:

aching bones/joints; arthritis; asthma; backache; blocked nose; bronchitis; bruising; bursitis (tennis elbow/knee); chest infection; chicken pox pustules & itch; chilblains; colds; congestion of the chest/nasal passages/sinuses; coughs; cracked heel & skin; cradle cap; cramps/spasms; croup; dry skin; eczema; emphysema; fallen arches; fever & infection; flu; gout; headaches; joint inflammation; laryngitis; metacarpal syndrome (computer joint/wrist); migraine; neuralgia (nerve pain); osteoarthritis (arthritis of mid years); pain; phlebitis (vein inflammation); pigmentation; post-operative aching wounds; pneumonia; rheumatism; rhinitis/sinusitis; scarring; sciatica (pain in sciatic nerve – pelvic area); skin cancer; sore throat; sprains & strains; stiffness; stretch marks; styes; sunburn; sun spots; swelling of joints; TB; whiplash; whooping cough; wrinkles.

BALM APPLICATIONS

Chronic Pain & Discomfort:- (2)

Have these items ready:

1. Gauze
2. Roll of strapping bandage
3. Bandage clips/safety pins
4. The balm

*Place the gauze on a hard surface (counter, vanity, tray, etc.)

*Butter' the gauze with the balm – not too much, not too thick – enough to cover the effected area

*Place the gauze gently onto/over the effected area

*Strap the effected area with the bandage – not too tight – circulation must not be hindered.

Apply morning and night to:

Aching bones; bursitis (tennis elbow/knee); gout; joint inflammation; metacarpal syndrome (computer joint/wrist); osteoarthritis (arthritis of mid years); pain; sprains & strains; swelling of joints; torn ligaments.

Special Cases: - (3)

Blood poison: Use method 4 BUT blisters, frostbite, fungal growths & infection, male hygiene, mange, mastitis, apply every three hours until poison recedes.

Boils: Use method 4 BUT apply every three hours until pit drawn. Continue applying balm thereafter for scarring. Hint – a ¼ t of Calcium Carbonate B.P. each day is a wonderful blood purifier.

Burns: use method 4 - DO NOT POP THE BLISTERS
Female hygiene; hemorrhoids (piles); male hygiene; pruritis; thrush – vaginal - use method 3 PLUS the use of surgical gloves which should be renewed or disinfected after each application.

BALM APPLICATIONS

Secondary Ailments Requiring Disinfecting & Soothing:- (4)

Have these items ready:

1. Cotton wool
2. Disinfectant
3. Bowl of warm water
4. Clean towels
5. The balm

*Place warm water & disinfectant in bowl/basin-swab the affected area with the cotton wool until clean

*DRY VERY WELL – Bee Wise is wax based. Should any moisture be left on the skin it will be retained by the wax which will hinder the treatment.

*Place a 'dab' of balm on 1 fingertip

*Slightly soften the balm between the fingertips of both hands

*Apply to the effected area – the wax base in the balm will spread as it warms & lubricates the skin

*Massage the balm into the effected area until the shine disappears. (+/- 30 to 40 secs).

Apply at least 2 to 3 times a day for:

Abrasions, allergic reactions – bee stings, etc, athlete's foot, bed sores – mild, bites – animal, insect, spider, etc – mild, bleeding – mild, blisters – mild, bunions, burns – mild, chilblains, circumcision wounds, cracked lips, cracked heels & skin, cuts, female hygiene, fever measles rash, mite infestation, nappy rash, prickly heat, psoriasis, rashes – general, saddle sores, sepsis – mild, shingles, stings – including sea creatures, straw mite infestation, ulcerous sores – diabetic, oral & venous, urticarial /hives, whitlows, wounds – mild, yeast infection.

BALM APPLICATIONS

Chronic Ailments:- (5)

Have these items ready:

1. Cotton wool
2. Disinfectant
3. Bowl of warm water
4. Clean towels
5. Scissors
6. Gauze
7. transpore or micropore – thin
8. The balm

*Place warm water & disinfectant in bowl/basin - swab the effected area with the cotton wool until clean

***DRYVERYWELL** – Bee Wise is wax based. Should any moisture be left on the skin it will be retained by the wax which will hinder the treatment. In cases of extreme pain dry the area with a cool hair dryer, or by waving a paper plate over the effected area until bone dry

*Cut to size the gauze - slightly larger than the effected area

*Place the gauze on a hard surface (counter, table, etc)

*‘Butter’ the gauze with the balm - not too much - not too thick - enough to cover the effected area

*Place the gauze gently onto the effected area

*Cut 2 strips of sticky plaster

*Adhere the gauze to the skin with these strips, on 2 sides only - N.B. - the effected area must only be covered with gauze - Bee Wise **MUST** breathe.

Apply at least 3 times a day for

Bed sores, open wounds, bites, animal, insect, spider, etc, bleeding, blisters, bunions, carbuncles, cuts, cysts - fibro tic & sebaceous, ingrown hairs, radium burn, saddle sores, sepsis, straw mite infestation, ulcerous sores – diabetic, oral & venous, whitlows, wounds.

BALM APPLICATIONS

*And therefore as a stranger
give it welcome.*

*There are more things in
heaven and earth, Horatio,
Than are dreamt of in
your philosophy.*

*Bee Wise is manufactured
solely to produce good.*
